Age/Year Group:	15-18	
Date of Visit:	Saturday, Dec 4, 2021	
Purpose of Visit:	Christmas Caroling	
Venue/Location:	Lilly's on the Lake	
Outside Company Used:	N/A	

Where applicable please comment on and rate the following features:

	Rating (1to10)	Comment
1. Pre visit planning	5	It was hard to establish contact with the people in charge of this visit. The main contact, Gigi Capria, was contacted via Jason King. Mrs. Capria sent Mr. King one event, which was communicated to me, but when I contacted Gigi, she mentioned multiple events. She did not have information about the specific events, so I then had to contact a third person, Les Allier, about the specific event we were performing at. He did not appear to have much experience in organizing with outside performers such as singers.
2. Travel Arrangements	10	All students were to be transported by their parents.
3. Educational content/ activity program	7	Again, this was an opportunity to practice performing live in an unknown environment, and making adjustments as needed.
4. Instruction and supervision	10	Students were under my supervision the entire time

5. Equipment	6	Equipment was provided by the organizer on site, Les Allier. We most likely would have been better off not using any equipment or supplying our own equipment, as what was provided was not of high quality.
6. Suitability of environment	7	It was a bit warm outside, however, there were no problems with the site itself.
7. Accommodation		n/a
8. Food		n/a
9. Evening Activities		n/a
10. Significant Issues during the trip		There were no significant issues that we (WPS) could control. There seemed to be issues of communication between the event coordinators (Capria, Allier) and the City of Clermont, which did result in very few people observing our performances.
